

JORDAN – STEP 2 Qualified Applications – Project ID

#	Project ID	Project Name
1	276	Personalized Atmospheric Water Harvesting Devices: Secure Access to Water for families in Irbid
2	280	ADADK
3	283	Digital Solution for Efficient Water Demand Management
4	333	Worm Compost and bokashi fermentation Using food waste
5	316	Scrap
6	314	Massive Agricultural Waste Recycling for Compost and Fertilizer Production
7	306	WaterLoo
8	348	DripLeak
9	344	Irrigation technologies and practices
10	343	DION
11	342	eRecycleHUB
12	334	Recycling ornamental trees' wood prunings and leaves into Biochar and Wood Vinegar
13	361	Vertical Salads
14	350	DAWRHA
15	546	Using technology for solid waste management in Jordan - Expansion to Al Balqa
16	490	Pioneering project for green agriculture and animal husbandry
17	460	Retal perfume Brand
18	455	pure water
19	426	production of compost by berkely method
20	420	Smart Agricultural Solutions
21	413	Jams industry
23	408	Green Future Agriculture
24	399	Septic Tanks smart management
25	398	Hydroponics in Jordan
26	599	Sub Grant
27	613	BOOKINGGREENARABIA
28	621	Building bicycles and bicycles for people with disabilities and adults
29	645	Monetize village waste by Bookagri
30	647	Alefrdo Books - Used Books Marketplace
31	654	Creating 3D printing filament by combining thermoplastic material with wood waste powder
